To the Nashua Airport community.....

I would like to thank all of those 80 plus airport individuals who came out Tuesday evening to show the members of the ZBA that you are truly concerned about this airport.

As I said in my letter of last week, Government committee members are always impressed with large turn-outs on controversial issues and your presence clearly helped them understand the magnitude of this issue.

As much as this victory is "sweet", please understand that there is a strong possibility that this developer **WILL BE BACK** and we may need to once again call on all of the airport community to respond, as you did Tuesday night.

Again.....THANK YOU for your great (and successful) effort!

Don Davidson
